People Tinguian

Stock.

Name Bai-yatu. Small hard red berries which are boiled, pounded fine with shell and put in the water where fish abound. It acts as a poison or stupefient to them & they soon float on the surface.

Collection R. F. Cummings Expedition, ^{when they were} easily secured.

(F. C. Cole, 1907-8).

Notes The fish are later eaten, with no evil effects.
