Locality Abra.

Namarabar - Patoc

People Tinguian

Stock.

Name Corn meal mill. Consists
of two stone disks with inner
surfaces cut in "waves".Corn is fed into large hole in upper
stone. This revolves on ^{the} lower, crushing
the corn.Collection R. F. Cummings Expedition,
(F. C. Cole, 1907-8).Notes This is evidently an adopted idea,
the more common way is to rock one
stone on another.Width _____ Length _____ Height _____ Price ~~_____~~
