Basket holds cotton & outfit.

a bit of thread is twisted, with the fingers, from the lower end of the cotton. This is attached to spindle just above the disk. Operator hold stick in left hand, set on the ground & with right hand rubs spindle rapidly against naked thigh, then allows it to spin on a stone or piece of hide. As it spins it twists out new thread. Arm of operator raises up as thread is made. When spindle stops, new thread is wound up, above the disk, and process repeated.
