Name

Spear for the capturing of fish
doubtless belonging to a chief. Fur-
nished with 14 rows of wooden barbs
and originally one of bone. Made of
hard wood tapering to the blunt end, and
decoratively banded with fiber and rattan.

Collection

Mrs Stoddard Hancock
Length 3.8 meters.

Notes

The spear has been in the U.S. since
sixty years. The bone barbs were
lost here in the U.S.
