FIELD MUSEUM OF NATURAL HISTORY—ARCHAEOLOGY

136

A  
180846**Provenience:** France. Grotte des Grèzes

Field No.

**People or Culture:****Object:** 2 frontal bones from reindeer skull**Material:****Description:** frontal bones with antler pedicels. Despite disintegration along the suture and calcareous adhesions, the two bones can be articulated fairly well.240  
10-A  
Neg. No.

One of the bones is labelled "des Grezes" and neither were numbered (7/79). They were kept in a box with a more complete reindeer skull from Grotte des Grèzes (198259) and doubtless belong

**Dimensions:** to the same accession as that and other bones from this site.  
(in cm.)

Acc. 1793

**Collection:** Pierre Bourrinet. Marshall Field Archaeol. expedition to Western Europe, 1927-28.
