CHICAGO NATURAL HISTORY MUSEUM—ETHNOLOGY

22-5**221543**

Field No.

Provenience:

Cameroun: southern coastal region

People or Culture: undetermined: Ngumba, Mabea, Benga,
Bulu, et al.

Object: figure of man

Material: wood, black pigment.

Description: figure of man crouching; in attenuated style
; coiffure in form of four "petals": the forward two
are convex and end in points above the outer corner
of the eyes; the rear two are larger and concave;
the figure holds before it the representation of a
large whistle and is seated upon a stalk which is
carved out of the same block of wood. (Specimen very
badly checked and extensively repaired.)

Dimensions: Height: 50.3.
(in cm.)
