FIELD MUSEUM OF NATURAL HISTORY—ETHNOLOGY

24-7

222791

Field No.

**Provenience:** South and East Africa**People or Culture:** Masai**Object:** belt**Material:** leather, metal, glass beads

**Description:** Belt is made from a thick leather strip which can be fastened by a leather thong on one end and a leather loop on the other. It is fringed along the lower edge with pieces of silvery metal fringes. Along the top is a row of yellow beads and along the bottom a row of green. The surface between these rows is decorated by horizontal and vertical rows of beading in red, orange, yellow, green, blue, and white.
