**Provenience:** Nigeria, Ipetumodu**Field No.****People or Culture:** Yoruba

36

**Object:** Pot**Material:** Clay

**Description:** A pot made to hold wood or charcoal inside and another pot on top. One side has been cut away so that additional fuel can be added. There are three knobs on the top rim. A cooking pot rests on these knobs. This is called adogon in Yoruba meaning firepot. It is also used for warmth, and for roasting corn.
