

A

ENT British East Africa FIELD COLUMBIAN MUSEUM.

104216

Country

Locality

People

Name

to 104212. Length 31 cm; width of blade  
4.2 cm. Until recent years wooden digging sticks were  
the only agricultural implements in use. Even today the  
women hesitate to break the soil with metal for fear that  
they will thus drive away the rain.

Collection

Notes

Machakos

Wakamba

Adze with iron blade, made similar  
to 104212. Length 31 cm; width of blade  
4.2 cm.
