Name

Drum - horizontal "~~horizontal~~"  
 hollowed from top 74 cm. long  
 cylindrical. 2 longitudinal slits  
 & one cross slit on top. Ends  
 cemented, with iron bands  
 around edges. (over)

Collection

F. W. Starr

Notes

teponaztle

Acc.

947

Price

sch. 1918

Modern horizontal drum like the ancient Mexican teponaztli. It is carved of a solid log of wood with two leaves or lips left at the top. The interior is hollow. The two leaves emit different tones and are beaten alternately with one padded stick.
